

Online Post Election Survey for Community Feedback

The City of Parksville invites all residents to help us improve our election processes following the 2022 Parksville local government election.

Citizens of Parksville were recently part of the decision-making process by voting in the 2022 local government election. We are committed to demonstrating open, transparent, and accessible government, demonstrated through the administration of the recent election process, as well as ensuring an easy and efficient voting experience for our residents.

With the election behind us, it is important to reflect and evaluate to continue to improve. The purpose of this survey is to help us understand:

- Public awareness of Parksville's local government election.
- Satisfaction with how the election was administered.
- What could be done to improve the voting experience during future local government elections

Help us meet our goal of exceptional election service by completing the survey which should take no more than five minutes to complete and is open until December 16. Residents interested in completing the survey may do so by clicking this link <https://www.surveymonkey.com/r/electionsurvey-parksville>. The survey may also be accessed from our website and [Let's Talk Parksville](#). We appreciate your time and your participation.
