

Parks Activities to Know

Over the next two months, there are some activities occurring in our parks we would like our residents and visitors to know about.

Parksville Community Park

- Weather permitting, the sidewalk connecting the perimeter of the Lions Ventureland Playground adjacent to the new third bay of the ZipKrooz is scheduled to be poured this week.
- Work to install new surfacing outlined in the photograph below will begin mid-February. While work is underway, these sections of the playground will be closed, with reopening scheduled for early April.
- Parksville Community Park sport fields will be closed for spring maintenance from March 13 to March 17.

Springwood Park

- The sports fields will be closed March 20 to March 31 for spring maintenance.
