

## Boulevard and Sidewalk Maintenance

Well maintained boulevards add character to neighbourhoods and enhance community pride. Residents, property owners and business operators are responsible for the maintenance and care of the City boulevard adjacent to their property. This includes cutting the grass, trimming hedges and shrubs, and keeping clear of weeds and litter.

The boulevard is the area between your property line and the street curb or shoulder which may or may not include a sidewalk. Property owners and residents are required to maintain the City boulevard bordering their property, where it borders the front, back or sides of the property. In our climate, vegetation grows quickly and can easily become a nuisance or hazard if not managed regularly.

In the City's bylaw, "boulevard" means the area of a highway between the edge of pavement, sidewalk, and/or curb of the roadway and the adjacent property line but excludes a sidewalk. As detailed in the City's Traffic Bylaw No. 1436, in keeping with a reasonable standard of maintenance, property owners must maintain the boulevard adjoining their property:

- Keep grassed areas trimmed and free of all weeds
- Trim and maintain all plantings
- Remove all garbage and recycling, leaves, rubbish, discarded materials, hazardous objects and materials from boulevards and sidewalks
- Maintain safe pedestrian access to sidewalks
- Maintain safe sightlines for vehicle traffic

Please note, failure to maintain boulevards may result in enforcement action from City bylaw compliance officers. Questions should be directed to the City's bylaw compliance department at [bylaw@parksville.ca](mailto:bylaw@parksville.ca)
