

## Environmental Assessment of Former Landfill Site

Work related to an environmental assessment of the former Parksville landfill site at 1040 and 1060 Industrial Way in the industrial park is now underway.

The City's contractor is now onsite to begin clearing the brush around the planned investigation area which is required to facilitate the assessment. Site assessment will continue between June 26 and the week of July 3 with work starting at 8.30 am on these days.

During these dates, consultants will conduct several tests of the property and fencing will be in place to protect the work area. For the safety of the public and if possible, please avoid the area for the next two weeks. When using the trails, dogs should be kept on leash. Signage will be posted at the work site.
