

WORLD WATER DAY EVENT

Saturday, March 24, 2012 - 2:30 pm

The Forum, Parksville Civic and Technology Centre

In partnership with the RDN and Team WaterSmart, the City of Parksville will host a World Water Day event on Saturday, March 24, 2012 in the Forum, Parksville Civic and Technology Centre, 100 Jensen Avenue East from 2:30 - 4:30 pm

This **Water Wise Veggie Gardening** workshop is free to the public. Growing your own vegetables greatly reduces your overall water footprint compared to buying them in the supermarket. Lead by organic gardening guru, Connie Kuramoto, the workshop will talk about building a veggie patch that uses water wisely and the best plants and mulches for low-watering.

An introduction will be held in the Forum followed by a hands-on workshop on the lawn adjacent to the Parksville Civic and Technology Centre.

World Water day is officially recognized on March 22, 2012, with *Water and Food Security* as this year's theme.

Pre-registration is necessary for this free workshop:
