

McMillan Street - Major Road Construction

We wish to remind residents and businesses that major road construction continues on the McMillan Street upgrade project. This work began on March 13 and weather permitting should be completed by mid-April. Windley Contracting has advised that weather permitting, paving on McMillan Street will be started at the end of next week.

During road rebuilding and paving, businesses are open as usual with alternative access from Alberni Highway to Memorial and Harrison Avenues and off Highway 19A at the lane next to Brit Foods for Morsion Avenue. Traffic control staff will be happy to provide information on how best to access your destination, please ask for assistance.

During this major road construction phase please be aware of the following:

- Alternating single lane traffic during working hours will remain.
- Intermittent intersecting road closures during working hours will be implemented as required.
- Detour signage will be erected to notify the public that local businesses are open providing advanced warning of road disruptions.
- Traffic control personnel will be on site.

The City and Windley Contracting wish to thank everyone for their patience and understanding during this major project.

More information on the McMillan Street upgrade project may be found at <http://www.parksville.ca/cms.asp?wpID=388>
