

Sunray Stairs Beach Access Project

The City of Parksville's engineering department recently completed the tender evaluations for the Sunray stairs beach access project. The evaluation determined that the tenders received were not within the City's approved project budget. As a result, the engineering department has concluded that it is not possible to award a contract at this time.

This project will now be reevaluated and the City expects to reissue a tender early in 2013.

The City presented the proposed design for the stairs at a public information session held in March. Design drawings are available on the City's website at <http://www.parksville.ca/cms.asp?wplD=415>
