

Water Main Flushing - February 16 to March 27

The City of Parksville will implement its annual water main flushing program from February 16 to March 27. This is an important part of our ongoing maintenance program to ensure the integrity of the water supply system.

Flushing will take place mainly between the hours of 7:00 am and 3:30 pm, Monday to Friday. During these times, customers can expect some discolouration of water and intermittent drops in water pressure.

Please follow these guidelines during the water main flushing program:

- Keep a fresh supply of drinking water in your refrigerator.
- Check for discolouration of water **before** doing laundry.
- If your water is discoloured, run an outside tap (after 3:30 pm) until the water clears
