

Community Park Improvements

Beachfront road closure – May 4-7

Beachside Drive, the beachfront road in the Community Park will be closed from Monday, May 4 through Thursday, May 7, eliminating all vehicle access to the beachfront. During this time, vehicle parking will be accommodated in the overflow parking area behind the curling rink. Paving is weather dependent so it is possible the dates may change.

Over the past few weeks drainage repair work was completed in this area and because this section of road, prone to flooding over the years, was in poor condition, it is being replaced. Concrete curbing has already been poured in preparation for the paving to be completed next week.

Food truck pads

The construction of the food truck pads is nearing completion with the drainage and subsurface preparation completed by the end of April. The curbing is in place and the bricks will be laid after the road works have been completed in early May.
