

National Public Works Week - May 17-23

The City has proclaimed May 17-23 as National Public Works Week in Parksville. This year's theme is "Community Begins Here".

National Public Works Week is observed each year during the third full week of May and this is the 55th year. NPWW calls attention to the importance of public works in community life and seeks to acknowledge the efforts of thousands who provide and maintain civic infrastructure and services known as public works.

Mayor Lefebvre said, "We are proud of the 24/7 services of our public works staff and proclaiming this week allows us the opportunity to remind the public of the work provided by public works."

Public works infrastructure, facilities and services are vital to the health, safety and well-being of the residents of Parksville and such facilities and services could not be provided without the dedicated efforts of public works professionals, engineers and administrators who are responsible for building, operating and maintaining the public works systems that serve our citizens.
