Request for Qualifications General Contracting Construction

The Englishman River Water Service invites responses to a Request for Qualification from those interested in providing general contracting construction services for the following projects:

- **Contract 1 - Intake, Water Treatment Plant and Top Bridge Reservoir Transmission Main**
The work generally includes construction of the raw water intake and pump station, water treatment plant (WTP) and the transmission main from the WTP to the Top Bridge Reservoir.
- **Contract 2 - Springwood Reservoir Transmission Main**
The work generally includes construction of the transmission main from south of the WTP to the Springwood Reservoir.

Interested Contractors may submit qualifications for both contracts or one of Contract 1 or Contract 2. The closing date/time is 4 pm, August 30, 2016.

The intent of this RFQ is to shortlist a minimum of three respondents and possibly more, based on the quality of submissions, that in the ERWS's discretion are deemed best qualified to meet the requirements described herein and be invited to participate in an Invitation to Tender
