

Reminder to Parksville Residents to Complete Community Park Survey

The City of Parksville, in partnership with a consulting team from Vancouver Island University, is developing a long-term master plan for the Parksville Community Park.

Earlier this month, residents received a postcard in the mail with information on how to participate in an online survey about the park. The survey is available at www.Parksville.ca and requires an access code from the postcard.

The survey will take five to ten minutes to complete and will be open until **Friday, May 26**. Survey responses are anonymous and because we recognize household members may have differing opinions, we are able to accept two surveys per householder (per access code) and please, just one response per person.

If you have not received a postcard in the mail or if you prefer to complete a paper copy of the survey, contact the City of Parksville, 100 Jensen Avenue East; 250 248-6144.

Resident input will assist the City and the VIU team to identify goals and priorities for the future of the Community Park and also guide the development of the Community Park Master Plan. We hope to learn what it is about the Community Park residents enjoy, what might be missing from the park and also what changes should be considered in the future!
