

Watermain Flushing to Start in February

The City's annual watermain flushing program will begin on February 11 and run through the first week in April. Flushing is an important part of our ongoing maintenance program to ensure the integrity of the water supply system.

Flushing will generally take place between the hours of 7 am and 3:30 pm, Monday to Friday.

During these times, customers can expect some discolouration of water and intermittent drops in water pressure. Please follow these guidelines during the water main flushing program:

- Keep a fresh supply of drinking water in your refrigerator.
- Check for discolouration of water **before** doing laundry.
- If your water is discoloured, run an outside tap (after 3:30 pm) until the water clears.
