

Construction of New Waterworks along Island Highway West

Between April 1 and April 17, Magnum Project Management will install water service connection and hydrant leads along Island Highway West – between McMillan Street North and Lombardy Street.

Single lane traffic will be provided in both directions during construction and pedestrians and cyclists will be directed around the construction area. The roadway will be reinstated at the end of each day.

Questions should be directed to engineering department at 250 951-2484.
