

## Summertime Plantings by the Numbers

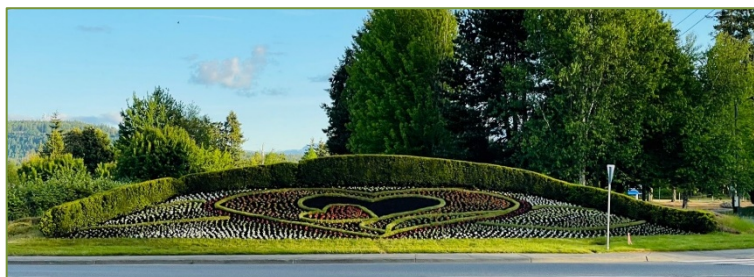

Each summer, the City plants and maintains a variety of flower beds, planters and hanging baskets throughout Parksville. It goes without saying, our parks crew are quite busy at this time of the year with plantings and general cleanup while everything continues to grow so quickly. Over the years, the City has planted millions of bulbs and flowers to beautify our streets, public facilities, parks and open spaces. Most of the annuals planted are begonias, marigolds, zinnias and salvia.

And this year's numbers speak for themselves:

- 15,419 annual bedding plants.
- 14 annual beds throughout City with features in the Parksville Community Park, at Pym Street and the Highway 19A as well as downtown Parksville.
- 21 planters on Craig, McCarter, Alberni, Morrison, Parksville Community Park, and our operations yard.
- A whopping 117 hanging baskets.

We hope you enjoy all the colour and would love you to share your photos to social media, please tag us at @City\_Parksville or #parksvillepics
