

## Lions Ventureland Playground Upgrades

On July 29, Council approved the award for the supply and installation of playground equipment in the Parksville Community Park to Suttle Recreation for \$195,000.

Earlier this year, through the British Columbia Tourism Dependent Communities Fund, the City received a grant award for \$315,000 for improvements to the Lions Ventureland playground. As well as the new equipment, this funding allows for rubber resurfacing of the same play area.

The playground piece is based on ramps and hexagonal platforms fostering inclusive and intergenerational play to be accessible to users of all abilities. The design is based on a ship and dock theme fitting with the marine-seashore overall theme in the Lions Ventureland playground. Installation of the new equipment and resurfacing will take place later this fall. With the support of the Parksville Lions Club, the playground continues to see ongoing upgrades.
