POLICY

It is the policy of the City of Parksville to support the British Columbia film industry by accommodating commercial and non-commercial filming on City properties while protecting the City's assets and avoiding disruption to our businesses and use by residents and visitors. The City requires that anyone planning a film production on City property, including streets, sidewalks and other public space, agree to certain guidelines (Appendix A) and obtain a permit. There is not necessarily a right to use roads or to film in locations which limit access to sections of the City. Filming locations must not compromise safety of participants or the public and must be approved in advance by the City. Procedures, guidelines and conditions specific to individual City sites, areas or premises may be developed to ensure implementation of Filming Policy objectives.

The following describes the requirements and restrictions applicable to permitting commercial and non-commercial filming on City of Parksville premises.

1. Once a completed application is received, a report will be forwarded at the earliest opportunity to a regular meeting of Council for consideration.

2. The City retains the right to suspend or terminate filming activities and/or immediately evict the applicant in case of emergency or contravention of the permit conditions. Applicants must designate a named on-site liaison person with authority to intervene and/or stop the event if necessary at any time during filming. Filming privileges may be reinstated after re-submission of an application.
3. The applicant shall not use the site/route for any other purpose than that stated in the permit and must submit for authorization to the Chief Administrative Officer or his designate all filming schedule or activity changes at least 24 hours prior to the commencement of such schedule or activity changes.
4. The applicant shall be responsible for maintaining the site/route in a clean condition, and for any clean-up following.
5. The applicant shall ensure the safety of all equipment and other chattels of the City, and if any such equipment/chattel is damaged or missing, the applicant shall be responsible for replacement.
6. The applicant shall not construct, erect or attach or cause or permit to be constructed, erected or attached, any device, fixture or other things of whatsoever nature, including anything nailed to or hung from boulevard trees, planters, etc., without the prior written consent of the Chief Administrative Officer or their designate.
7. The applicant shall not stop the normal flow of traffic at any time without prior authorization and must station flag persons prior to road closures at road closure boundaries.
8. The applicant shall not bring any animals of any kind onto City premises without prior approval and the City reserves the right to require a veterinarian's letter certifying that the animal is free from disease causing bacteria and parasites.
9. The applicant shall not use, or permit to be brought onto City premises, any chemicals, including but not limited to black powder, propane, naphtha, diesel fuel and gasoline or other hazardous materials, except as authorized by the Chief Administrative Officer or their designate.
10. The City will charge fees for filming on municipal properties to recover costs (Appendix B). Fees are set to reflect a fair charge for services, sites and facilities offered the industry.
11. The *Film Permit* Application (Appendix C) will become an approved permit when it is returned to the applicant organization dated and signed by the Chief Administrative Officer or their designate.
