

Hello,

Thanks to all those who came out to see the Memorial Avenue Streetscape and Utility Upgrades Project team at the first Summer by the Sea Street Market of the year on Tuesday! The event was a hit, with the team reaching out to over 100 market-goers to spread the word about the project. Many people had heard about the project and were happy to hear about the upcoming participation opportunities.

Our updated project website [MemorialAve.ca](http://MemorialAve.ca) now contains information on the history of Memorial Avenue, the health of the spectacular street trees, and information on the upcoming in-person public engagement events we have planned.

We've also launched a quick online survey on the project website; just click on the *Online Survey* tab to provide feedback to the project team. The survey is open until July 3, so be sure to fill it out and share it with friends this month – we'd love your input!

On June 22, please join us in person while we walk this picturesque street, reflect on its history, and envision its future. We'll be exploring the many opportunities for enhancing the streetscape during this public walkshop (a walking-tour workshop) starting and ending at the McMillan Arts Centre. The sign-up for this event can be found at [MemorialAve.ca](http://MemorialAve.ca).

We will continue to update you as we proceed through each phase of this project, and we hope to see you on June 22 for our unique event.

Thanks,
