

Hello,

After some great participation from the people of Parksville and area, the Memorial Avenue Streetscape and Utility Upgrades Project team is now ready to begin conceptual design of Memorial Avenue. Our designers will start by integrating the ideas and vision shared with us by the community over these last few months into the technical requirements for this space.

We'd like to thank all of those who participated for their time, energy, and thoughtful feedback. In order to make this project a success, we needed to know how this unique street is used, remembered and experienced. The Parksville community provided us that understanding and we are sincerely grateful.

While the design team is working on design options, project update emails will be less frequent. Please be assured that project updates will continue as items arise to update you on. If you have any questions or comments, you are always welcome to email us at [MemorialAve@Parksville.ca](mailto:MemorialAve@Parksville.ca), or check out the project webpage [MemorialAve.ca](http://MemorialAve.ca) for up-to-date information anytime.

We will continue to update as we proceed through each phase of this project; we look forward to exploring the streetscape design options and bringing designs forward for further input in the coming months.

Thanks,

A handwritten signature in black ink, appearing to read "M. Lonsdale".
