

Let's Talk Gathering Plaza Survey

We are inviting Parksville residents and all users of the Parksville Community Park to provide your ideas and feedback about the new gathering plaza in the Parksville Community Park; how you use the space and how you would like the space to be used in the future. Link to the survey [here](#).

Major improvements and upgrades to amenities in the Parksville Community Park were completed earlier this year and we are pleased to see the spaces being used extensively by the public. We listened to concerns from park users who will now be better served with the new washroom building, improved accessible connections throughout the park, upgraded sports courts, new fencing at the sand volleyball courts, the new gathering space, and improved drop off areas.

We understand public spaces are important for community engagement, relaxing and socializing. With this survey, we hope to learn from visitors how the new gathering plaza space is being used and how it could be used in the future. Whether it's adding more greenery, organized events, or seating options, we want to hear from you. Participating in this survey is a voice in ensuring the gathering plaza space continues to be a vibrant, inviting, and inclusive space that enhances quality of life and fosters a sense of community.

[Let's Talk Parksville](#) has information about the recent Parksville Community Park upgrades should you wish more details. The survey available from the City's website and Let's Talk Parksville is open until October 14. Paper copies are available from City offices.
