

WorkSafe to Investigate Accident at City Operations Yard

Today, at the City of Parksville's operations yard, a subcontracted truck driver died while delivering a shipment of steel beams as part of the new water treatment construction project. No other employees were involved and there is no ongoing safety or environmental risk at the City's operations yard located on Herring Gull Way in the Industrial Park.

Oceanside Detachment RCMP was on scene today and at this time the investigation into the incident is currently underway with WorkSafeBC.

The City of Parksville regrets this tragic incident and loss of life and extends our most sincere condolences to the driver's family, friends and colleagues.
