

Two-day Closure of Jensen Avenue East Parking Lot

On Thursday, April 29 and Friday, April 30, the gravel lots on Jensen Avenue East between Craig Street and the Alberni Highway will be temporarily unavailable to vehicle parking.

This City property is in the process of being sold and as part of due diligence by the purchaser, geotechnical testing will be undertaken on April 29 and April 30, which will necessitate the lot being closed to public parking. Signage will be posted in advance and the lot cordoned off for those two days.

The Island Health vaccination clinic is operating from the Parksville Community Centre and as such, parking in the PCC lot is limited to those with vaccination appointments.

This property is being considered for development by Vertafile Systems Incorporated.
