## **Addendum No. 1            Questions and Clarifications**

To all Proponents:

This notice shall serve as confirmation that the revisions and clarifications included herein as Addendum No. 1 shall form part of the Request for Proposal for 5330-20-PROF, General Engineering and Consulting Services.

---

### **Questions:**

**In Section 4 - Scope of Work, it is noted that proponents will need the ability to work in ArcGIS. Can the City comment on the complexity of the possible/expected ArcGIS services needed? Are the services expected to be simple supporting efforts to update the database based on renewal program work or are more complex GIS assignments expected?**

Regarding questions pertaining to Section 4-Scope of Work and a contractor's ability to work in ArcGIS, we would be looking for them to provide data in compatible formats. These formats include shapefiles (.shp), geodatabases (.gdb or .fgdb) or ArcGIS Pro Project files (.aprx). If the data is tabular CSV or Excel files (.csv, .xlsx) would be sufficient. Some other acceptable formats would be georeferenced CAD files or KML files.
