<b>May 23, 2010 4:24 AM</b>	I had an issue with the new water rates as they were set up unfairly in the sense that it wasn't done on a per capita basis. Again, this was problematic for families as their rates were disproportionate to other households. I believe that some progress has been made in this area. Last summer I had 6 people living/working in my household. Did not water my lawns, yet neighbours did (outside of restrictions) and those people would not be penalized with increases whereas I would be. Again, we must look to encourage all to live here not just the wealthy seniors.	utilities - water
