

Help the City save water

Many homes are equipped with older toilets that require 13 or more litres per flush. New low flush toilets require only 4.8 or 6 litres per flush and dual flush toilets use either 3 or 6 litres.

By replacing your old toilet, you could use up to 1/3 less water - which could save more than 20 litres per day or over 70,000 litres per year.

The program

For a limited time the City is offering a maximum of one (1) rebate per residence for replacing toilets using 13-litres or more with a new CSA-approved low flow model. The rebate is \$75 for a 6-litre or less low flow model.

Who is eligible for the program?

This offer is only for owners of existing residential buildings with a valid occupancy permit located within the municipal boundaries of the City of Parksville, connected to both the City of Parksville water and sewer systems. Rebates will be issued on a first come/first serve basis, accepting only valid applications of toilets purchased on or after January 1, 2018, until the funding is exhausted.

This rebate program is not for new construction.

www.parksvilleaquastar.ca

What about my old toilet?

For a small fee, old toilets may be disposed of at the Church Road Transfer Station:

Location: 860 Church Road, Parksville, BC
Ph: 250 248-5254

What do I need to apply?

1. Completed application form (on reverse);
2. Proof of installation as follows:
 - Receipt dated on or after January 1, 2018 for purchase of CSA-approved 6-litre or less low flow toilet,
 - Photograph of old toilet in place,
 - Receipt dated on or after January 1, 2018 for disposal of old toilet at transfer station **and/or** photograph of old toilet removed with tank broken,
 - Photograph of new 6-litre or less low flow toilet in place;
3. You must agree to permit a representative of the City of Parksville access to inspect the installation. The City will not be inspecting every installation but may be doing random checks. The inspection is only for the purpose of ensuring the provisions of the rebate program has been met, it is not for the purpose of ensuring the toilet has been properly installed.

Submission of an application does not guarantee a rebate; the rebate program may be withdrawn or cancelled by the City at anytime.

I have ENCLOSED the following with my application:

- A copy of the receipt for new toilet purchased (dated on or after January 1, 2018);
- A photo of the old toilet in place;
- Receipt for disposal of old toilet at the transfer station and/or photo of toilet removed with tank broken;
- A photo of the new low flow toilet in place.

We recommend you make a copy of your completed application form and receipts for your own records, as all information provided will not be returned.

The City of Parksville will send a rebate cheque (lifetime maximum of one rebate per residence or business) for qualifying installations to the owner. Rebates are \$75 for a 6-litre or less low flow toilet. All claims are subject to verification. This offer may be withdrawn by the City at any time. Rebate applications may take up to 6 weeks to process.

Questions about this form? Please call 250 954-3060

I hereby certify that the information given is correct and the noted toilet has been installed at the installation address and does not exceed the maximum flow requirements of the City of Parksville. I also certify that the old toilet has been disposed of at the sanitary landfill. I agree to permit a representative of the City of Parksville access to inspect this installation for the purpose of ensuring the requirements of the rebate program have been met. I acknowledge that the inspection of the installation by City staff is not for the purpose of ensuring the toilet has been installed properly. I understand that the City of Parksville is not responsible for the functioning of the toilet and that submission of an application does not guarantee a rebate.

Signature of Owner: _____

Date: _____
