

Hello,

It was great to see many of you out for our workshops last Saturday, June 22. The McMillan Arts Centre were fantastic hosts, and the space we used even featured a wonderfully appropriate exhibit of trees and poppies! We heard lots of constructive feedback that will help us create our initial concept designs for the streetscape.

Informed by feedback we've received from the community both in person and online at [MemorialAve.ca](http://MemorialAve.ca), we are starting the initial conceptual designs of the streetscape. There's still time to fill out the survey, so don't miss this chance to help shape the future of this iconic part of our community.

We invite you to review the initial conceptual designs and provide further feedback at the upcoming workshops at **1 pm OR 6 pm on Wednesday, July 10**. Please join us for one of these workshops to help us refine our streetscape designs to fit both the technical restraints and community vision. Register at [MemorialAve.ca](http://MemorialAve.ca) for a reserved seat or drop in at one of the sessions to participate in activities to help us refine these designs.

We will continue to update you throughout the project, and we hope that you can join us exploring some of the exciting opportunities for this project in detail at this upcoming event.

Thanks,

**Michael Lonsdale, ASCT, LEED GA**
