Welcome to the Parkville Community Park Arboretum. This area showcases plant life from around the world.

Establishment of the arboretum began in 1994 under the direction of Peter Crawshaw, parks supervisor at the time. Planting continues today, providing educational opportunities which demonstrate the benefits and beauty of trees in our growing urban landscape.

In 2019, the Parkville Community Park Arboretum and Gardens was awarded a Level 1 Accreditation by the ArbNet Arboretum Accreditation Program and the Morton Arboretum, for achieving particular standards of professional practices for arboreta and botanic gardens.
